OLD BUSINESS

Replacement of Flag Pole at Veterans Park

The Manager noted Council at their March 7th meeting approved the replacement of the existing flag pole at Veterans Park. He explained the project has become more complicated because the new pole cannot be fastened to the stub of the existing pole and would have to be placed in a concrete base some 5 ½ feet deep. There is concern digging a large hole close to the floodwall which would have to be approved by the Flood Authority and reviewed by the Corps of Engineers. The Manager stated there are approximately 21 items in Veterans Park at this time and there will most likely be additional proposals presented for future memorials. He suggested installing a new flag and new rope on the existing 40' pole, repaint it if necessary, and proceed with the Viet Nam Memorial. He also reminded Council of former Mayor Vilello's suggestion to look at Veterans Park with respect to developing a plan of the current layout and where any future memorial requests could be addressed. He suggested to Council they may want to look at an alternate location for the Veterans Park. A short discussion followed regarding new locations, using Canal Park and getting support from different Veterans groups. **On motion of Mr. Forbes, seconded by Ms. Stringfellow and carried unanimously, Council postponed any action on the installation of a new flag pole until a long term plan is developed.**

Presentation on Proposed Boat Dock

Clinton County Economic Partnership operating board member, Louis Anastos and Julie Brennan, Tourism Director, were in attendance. Mr. Anastos noted that he and Ms. Brennan recently met with City officials to gauge interest and support for a boat dock on the Lock Haven side of the river. In early January, 2016, he and Ms. Brennan met with Jim Yoxtheimer, Director of the Lock Haven Area Flood Protection Authority, who took the idea before the Authority. They attended the March Flood Authority meeting and the Authority unanimously approved the concept and the next step was to obtain City Council approval to continue the project and to pursue U.S. Army Corps of Engineers approval.

Mr. Anastos noted the following project details for Council’s consideration:

1. A boat dock on the Lock Haven side of the River would be an economic benefit to the City’s downtown business district, allowing customers the ability to dock and then walk the short distance to the downtown.

2. The proposed location for the dock is directly down river from the Jay Street bridge. (Site Plan was provided)

3. As currently proposed, the dock is a straight 60-foot design that will run parallel to the levee walkway. (Boat Dock Design was provided)

4. They are working with two different boat dock manufacturers and estimate project costs to be under \$25,000.

5. Funding for the project would come from private donations and grants.

6. The City of Lock Haven would assist with final design and be the permanent owner of the dock, with full responsibility for maintenance

7. City crews would be responsible for installation of the dock each season (this would not be a permanent dock but rather a seasonal dock).

8. City crews would also be responsible for removal of the dock at the end of the season and in the event the dock would need to be removed due to high water (installation and removal would follow a process similar to that of the floating stage).

A short discussion followed regarding the removal of both the dock and floating stage in the event of high water, proper lighting, security for the boats, and the time frame for the completion. **On motion of Mr. Conklin, seconded by Mr. Forbes and carried unanimously, Council agreed to support the project for the boat dock with final approval to be made when the design is complete.**

Ms. Hannagan was in attendance and noted the City received a total of \$2,103.03 in program income funds in the 2013 CDBG Program and would like to reprogram these funds for Program Administration. In addition, there is an unexpended balance of \$4,602.00 in the Purchase of Fire Hose/Citizens Hose Company line which must be reprogrammed to another activity.

Ms. Hannagan stated that all funds in the 2013 CDBG Program must be expended by January 9, 2017 therefore the recommendation is to reprogram these funds to the City-Wide Sidewalk Replacement Program.

There is currently an unexpended balance in the Sidewalk Replacement Program activity line of \$774.05 (2013 CDBG) and \$30,000 (pending 2015 CDBG). Reprogramming the above amounts will increase the available total Sidewalk funds available to \$35,376.05.

Ms. Hannagan is requesting Council authorization to approve the following budget revisions:

Increase the Program Administration budget from \$34,000 to \$36,103.03; and
