## **Traffic Signal Improvements to Resume on Route 150 in Lock Haven**

**Lock Haven, PA** – The Pennsylvania Department of Transportation (PennDOT) announced today that it expects a traffic signal improvement project in downtown Lock Haven to resume next week. A total of nine signalized intersections on Route 150 and one on Route 120 will see improvements as part of this project.

Work will resume at the intersection of Routes 150 and 120 on **Monday, March 21**. The contractor will restrict traffic to a single lane while work is ongoing. These are **daylight closures**, and the contractor will **lift them at the close of each workday**. PennDOT urges drivers to exercise caution while traveling through the work zone as they may encounter flaggers in the roadway.

Improvements include upgrades to the traffic signal supports, vehicular and pedestrian signal heads and controllers, installing ADA-compliant curb ramps with detectable warning surfaces, curbing and sidewalks, paving, pavement markings, and miscellaneous construction. PennDOT will issue project updates as improvements begin at each signalized intersection.

M&B Services LLC. of Clarion, PA, is the contractor on this \$2.7 million job. This project will continue into the 2022 construction season, with completion expected in September 2022.

Motorists are encouraged to “Know Before They Go” by checking conditions on more than 40,000 roadway miles by visiting [www.511PA.com](http://www.511PA.com). 511PA, which is free and available 24 hours a day, provides traffic delay warnings, weather forecasts, traffic speed information and access to more than 1,000 traffic cameras.

511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by following regional Twitter alerts accessible on the 511PA website.
